ER-5115II

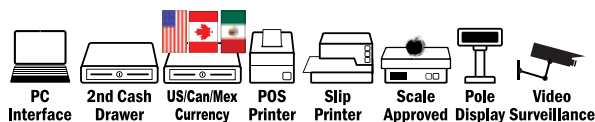

Electronic Cash Register

An Affordable ECR Featuring Traditional Plain Paper Dot Matrix Printing with Validation

Validation is a legacy cash register feature that can be used to improve security by providing proof of registration and an audit trail for important transaction documents. The ER-5115II allows validation to be enforced on selected operations such as paid outs, returns, voids, or payments. The ER-5115II uses lower cost plain paper and provides long-lasting easy-to-read receipt and sales journal records.

- Alpha-Numeric Receipt and Journal Printer with Single-Line Validation
- 15 Programmable Keyboard PLUs, Expandable to 40
- 1000 Open or Preset Price Look-Ups (PLUs)
- Three Menu Levels
- Up to 15 Clerks or Cashiers with Separate Report Totals
- Four Tax Rates or Tax Tables Plus Value Added Tax (VAT) Capability
- Standard RS-232C Port for PC Communications or External Devices

With the features and capability of a high-cost, sophisticated ECR, the affordable ER-5115II provides the gateway to system features with standard RS-232C communications.

15 Programmable Keyboard PLUs Expandable to 40

The ER-5115II includes programmable, 12 character alpha descriptors for each PLU. Each PLU is individually programmable to serve a wide range of needs. PLUs may be open, with a high amount limit, or assigned a preset price. Additional PLU options include food stamp and gallonage functions. In addition you can use the versatile level shift function for small, medium and large items, or breakfast, lunch and dinner menus.

1000 Price Look-Ups

With 1000 PLUs standard you can track fast moving items with preset PLUs or report additional product breakdowns by entering sales into open price PLUs. PLUs have extensive programmability including

stock counter. Plus, PLU to PLU linking may be implemented to add bottle deposits automatically.

21 Group Totals

Conveniently divide your PLUs into 21 major group categories. An item's sales can be reported to two different sales groups simultaneously. This allows, for example, sales reporting by department and sub-department. One glance at your group report will keep you informed – without requiring a time consuming analysis of your PLU reports.

Up to 7 Media Keys

Use cash, check and up to 5 different charge keys.

Discounts, Surcharges and Coupons

Assign up to five keys for discounts, surcharges, store or manufacturer coupon keys.

Security and Management Control

Programmable options let you enforce the appropriate level of security for your business. Among many options, you can control coupons, discounts, voids, refunds, cancels and

negative sales. Plus, the ER-5115II provides strict cash control with enforced closed drawer.

Reliable System Components

The ER-5115II features a heavy duty dot matrix printer, a large easy to read operator display, a standard pop-up customer display and a full size steel cash drawer with two media slots, security lock and a removable 5 bill / 5 coin drawer insert.
