HS710

## *Fully Featured Self Checkout System*

The fully-featured Histone HS710 is a traditional large grocery form factor self-checkout solution, including currency and coin recycling options. Streamline and maximize customer checkout efficiency with easy-to-use, intuitive design. Increase retailer profit by increasing customer throughput and reducing labor costs.

- Intuitive design – easy to use, fast and convenient.
- Large printer paper roll minimizes downtime for paper changes.
- Safe and reliable cash or electronic payment processing.
- Coin and currency recycling options.
- 15" high-definition LCD screen with projected capacitive touch (PCT).
- Modular design – easy to customize and install.
- Equipped with an advanced electronic validation scale.
- SDK available.

Shown with optional electronic payment processing terminal bracket, remote printer bracket and hand-held scanner bracket. Use the payment terminal, remote printer and hand-held scanner of your choice.

Specifications

Histone Model HS710

CPU:	Intel i3 6100U
Memory:	8GB
Mass Storage Device:	128GB 2.5" Solid State Drive
Serial Ports:	6
USB Ports:	6

Histone MD15VC Display

Display LCD:	15" High-Definition LCD Screen
Touch Panel:	Projected Capacitive Touch

Datalogic Model Magellan 9300i Scanner / Scale

1D Barcodes:	Supports Reading / Re-Reading of All Standard 1D Barcodes
2D Barcodes:	Aztec Code / Data Matrix / QR Code / Micro QR Code
Tone:	Adjustable Volume
Minimum Increment:	0.010 lb. (0.005 kg)
Scale Capacity:	0 - 30.0 lbs. (0 - 15.0 kg)

Qlight Model ST45L Alert Pole

Color:	Red / Yellow / Green
Alert:	Audible Alarm

High Capacity Thermal Kiosk Printer

Print Width:	80mm
Emulations:	Custom / POS
Paper Thickness:	63 ~ 88 μm
Print Speed:	130mm per Second
Printhead Life:	100Km
Cutter Life:	1,000,000 Cuts
Barcode Type:	1D Code / 2D Code

Money Control BCR206 Coin Recycling Module

Processing Mode:	Accepts and Recycles Coins per Transaction
Number of Single Coin:	Up to 100
Troubleshooting:	Smart Card / Coin Detection & Removal
Coin Replenishment:	Manual Coin Replenishment or Smart Coin Replenishment from the Coins Received

MEI Model BNR Bill Recycling Module

Cashbox Capacity:	600
Loader Cassette Cap.:	250
Bill Width:	60~80mm
Bill Recycling Units:	4
Recycling Units Cap.:	30 55 30 55

Tscale Model PB4560/PB6080 Electronic Validation Scale

Range:	Up to 132.25 lbs. or 264.5 lbs.
Maximum Error:	.35 oz.

Environmental Requirements

Operating Voltage:	88 ~ 264VAC
Power Consumption:	Average – 90W / Peak – 250W
Operating Temperature:	50º ~ 104º F
Storage Temperature:	- 4º ~ 122º F
Operating Humidity:	25% ~ 90% RH (Non-Condensing)
Storage Humidity:	0% ~ 93% RH (Non-Condensing)
