SAM4S

Commercial Grade Electronic Cash Registers from SAM4S

SAM4S ECRs are value-packed bundles ideally suited for a broad range of small to medium merchants. For one low price you get all the point-of-sale components your business needs, including processor, keyboard, printers, cash drawer, operator display, customer display, back-up disk and embedded application software.

Purpose-built SAM4S cash registers provide traditional key security, are not affected by viruses, boot up quickly, and are extremely stable. Most SAM4S ECRs feature communication ports that support popular point-of-sale peripherals.
