HS610

Compact, Cost-Effective Self Checkout System

The Hisense HS610 Self-Checkout System serves as the framework for a full self-service one-stop shopping solution. Shoppers will enjoy the convenience, speed, and simplicity of checking-out by themselves. At the same time, retailers benefit from improved labor efficiency, reduced customer queues, increased transaction velocity, and increased profits. The HS610 is compact and cost-effective suitable for smaller groceries, bodegas, delis, and more – where space and budget restrictions apply.

- Intuitive design – easy to use, fast and convenient.
- Large printer paper roll minimizes downtime for paper changes.
- Safe and reliable electronic payment processing.
- 15" high-definition LCD screen with projected capacitive touch (PCT).
- Modular design – easy to customize and install.
- Equipped with an advanced electronic validation scale.
- SDK available.

Shown with optional electronic payment processing terminal bracket, remote printer bracket and hand-held scanner bracket. Use the payment terminal, remote printer and hand-held scanner of your choice.
